

# **Mr. John Woon (Age 73)**

## **Specializing in Rubber Latex Products Manufacturing.**

### **Qualification**

- Licentiate of the Institution of the Rubber Industry, UK, 1971
- Diploma of the Plastics Institute, UK, 1972
- Diploma in Rubber and Plastic Technology, Singapore Polytechnic, Singapore, 1972
- Licentiate of the Plastics and Rubber Institute, UK, 1975
- Diploma in Management, ABE, UK, 1985
- Diploma in Business Studies, ICM, UK, 1985
- Certificate in City and Guilds of London, Southampton College of Technology 1976

### **Professional Membership**

- Member of ASTM (International) committee D11
- Member of the Plastic Rubber Institute., Malaysia (PRIM)

### **Experience**

John's working career started in 1972 when he joined Polymer Technical Service Centre, Department of Chemical Engineering, University of Malaya as a Technical Officer. In 1974 he continued his studies and training in England and worked for one of Europe's biggest synthetic rubber manufacturers, ISR (International Synthetic Rubber Company Ltd)

Back in Malaysia in 1976, John Woon re-joined University Malaya as the Technical Officer in the Department of Engineering. In 1981, John joined the world's largest manufacturer of specialized Natural Rubber latex and latex compounder, Revertex Malaysia Sdn. Bhd.

He helmed the Technical Department of the Natural Rubber Division of Revertex Malaysia until he retired in 2005. During his employment with Revertex, he was actively involved in the marketing of a wide range of synthetic resins, synthetic polymer emulsions and natural rubber latex compounds. In the course of his work, he had travelled widely to many countries offering technical services and problem solving solutions to customers.

With more than 40 years of experience in the latex industry, post retirement, John has been active as a Technical Consultant focusing on latex products. He also offers training courses for engineers, chemists, technologists and technicians engaged in the latex and latex products industries.

### **Past Positions:**

- Technical Officer, Department of Chemical Engineering, University of Malaya, Malaysia
- Rubber Technologist, International Synthetic Rubber Company, England
- Head of Technical Department, Latex Division, Revertex Malaysia Sdn Bhd, Malaysia

### **Present Position:**

- Technical Consultant to Hartalega Sdn Bhd, Malaysia
