

Mr. Paul Teh (Age 66)

Specializing in Rubber Products Manufacturing.

Qualification

- Diploma in Rubber and Plastic Technology, Singapore Polytechnic, Singapore 1974.
- Higher National Certificate in Applied Chemistry, Royal Institute of Chemistry, Southampton of College, UK, 1976
- Associateship of the National College of Rubber Technology, North London Polytechnic, UK, 1977

Experience

Paul, a rubber technologist by training, started his career in the rubber industry managing a centralised SMR factory in Malaysia. After leaving the estate, he joined a rubber-based product company as its Plant Manager where he acquired extensive exposure in factory management. In 1981, he started his manufacturing business. Within a span of 20 years, he expanded his business activities into a myriad of diversified enterprises from manufacturing to sports facilities contracting and operating of sports centres. In 2012, he merged all his business enterprises under his flagship company, FMV (M) Sdn Bhd (fka Fairmont Ventures (M) Sdn Bhd) which he co-founded and helmed as its Managing Director.

He has many years of experience managing business in the manufacturing and global distribution of EPDM sports granules, polyurethane coatings, binders and thermoplastic elastomers. In 2017, he has been instrumental in divesting his manufacturing business to a Global MNC sports granules manufacturer and sports facilities installation group.

Paul carries with him a wealth of knowledge and experience in operational and strategic planning to assist the growth of new start-up companies, principally SMEs.

Upon retirement, Paul spends his time in identifying passive investments focusing primarily on the rubber and plastic product industries.

Present Position:

- Managing Director of FMV (M) Sdn Bhd, Malaysia
